About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Batch Ovens

Batch Oven is also known as stationary oven or stagnant oven which utilizes superior quality infrared emitters. KERONE offers energy efficient custom infrared batch ovens used for batch or single process. The batch oven consists of opening and closing door to load and unload material in oven. Batch infrared oven is designed by selecting the proper infrared radiating source and mechanical construction.

The infrared batch oven can easily attain the temperature from 150oF to 600oF even higher by adopting proper infrared radiating source. Infrared batch ovens designed at KERONE are equipped with electronic control panel with the timer, precise solid state controller and sensors if required.

Applications:

- Mould pre-heating
- Glue activating
- Drying
- Fusing
- Annealing
- Curing
