About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to B.O.D Incubator

BOD incubators are one of most important lab equipment in many research centers, hospitals and other pharmaceutical labs for the purpose of controlling incubation, BOD Incubators, designed and manufactured by KERONE are technologically advanced and custom made meet incubation criteria required for storage of B.O.D. tests, vaccines, culture of bacteria, micro-organism and plant life seed germination work, serum incubation studies and immunological works etc.

BOD incubators are also known as low temperature incubators; our BOD Incubators are made with corrosion resistance stainless steel and fitted with superior quality materials and instruments.

They are specially designed for close control of incubation and storage temperatures.

Features

- Providing fast and accurate results
- Microprocessor P.I.D. temperature control
- CFC Free Refrigeration systems
- Double walled construction with insulation
- Continues display of set temperature, attained temperature, time, day, date
- Safety Thermostat
- Over / Under Counter Design
- Printer interface (Optional)
- Audio response (Optional)
- Fuses are provided on every electrical line to safeguard each and every component.
