ISO 9001-2008 | ISO 9001-2015 | EMS 14001 | OHSAS 18001

# About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

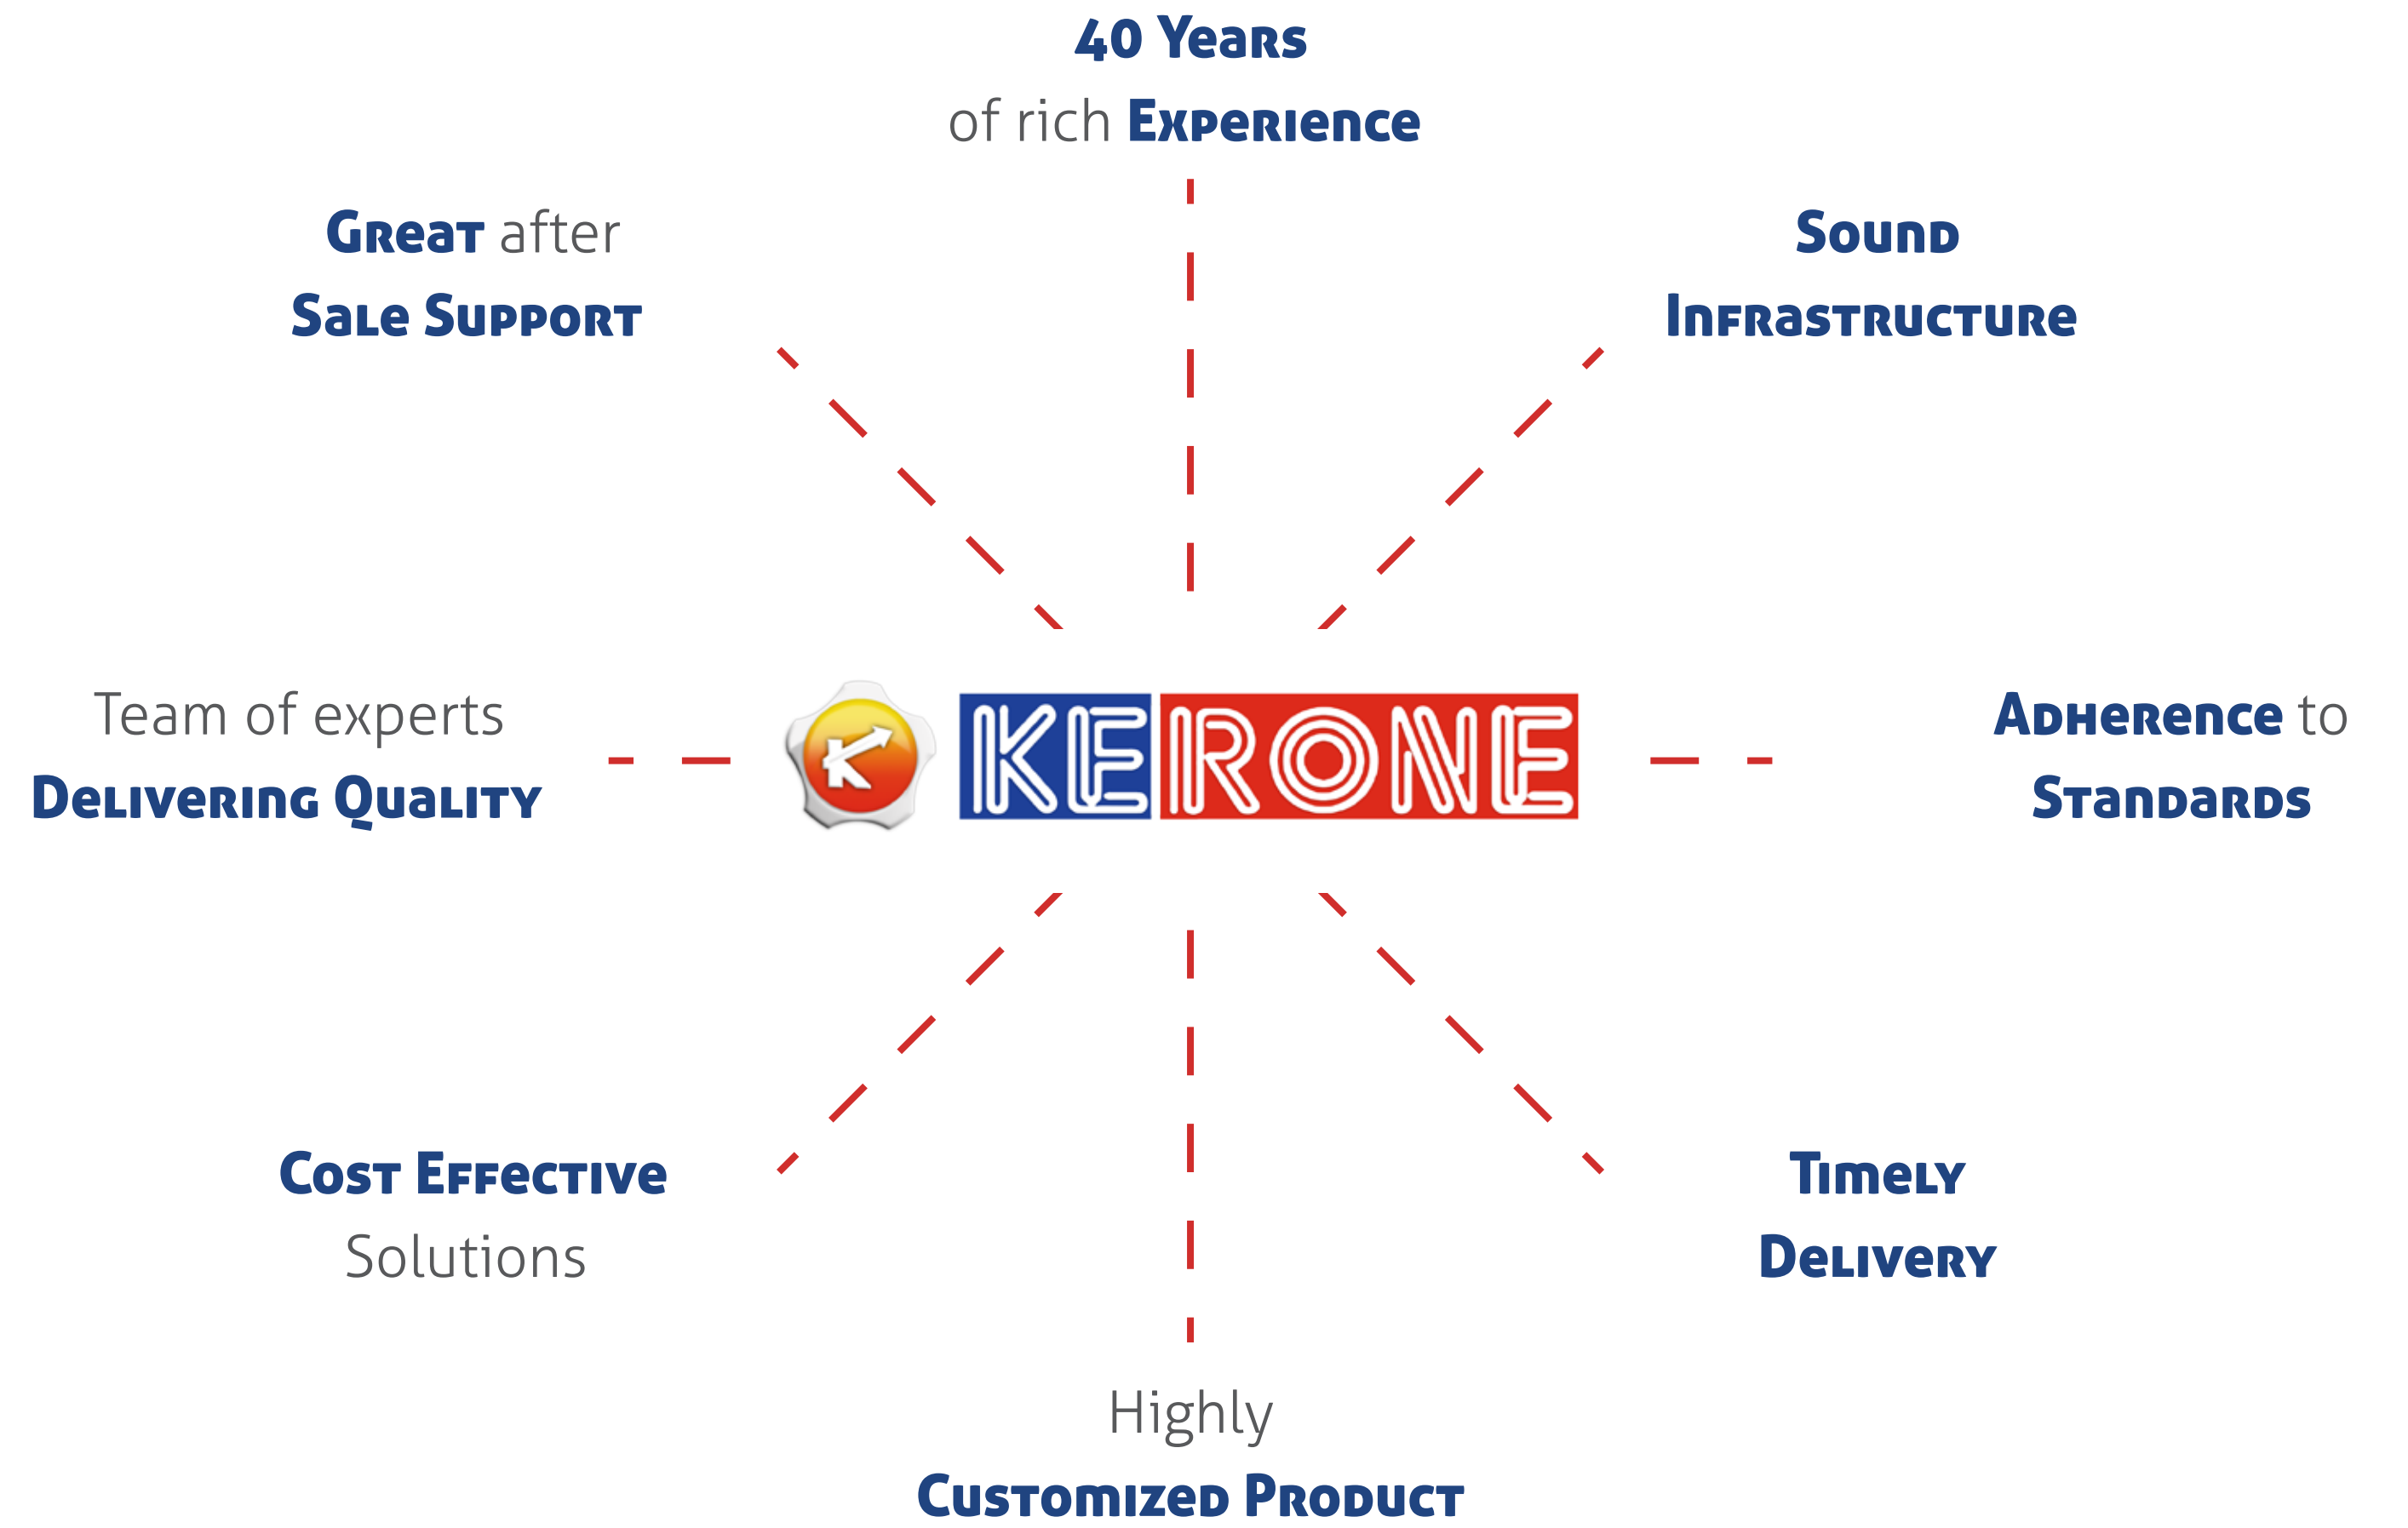

**“Enhance the value of customer operation through our customer need centric engineering solution”**

## *Mission*

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

## *Vision*

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

# Introduction to Continuous Microwave Heating Systems

MICROWAVE is a new technology for heating purpose. Application on heating industry such as rubber, food, kiln, ceramics, chemistry, lumber, paper, fiber, print and so on.

## Features

- Speedy Drying: High temperature is reached in short time to save lot of drying time.
- Uniform Heating: Microwave penetrates to the core of the product and heat every part evenly to upgrade product quality.
- High Efficiency: Microwave is functioned for product direct heating to avoid energy absorbed by container for equipment invest cost down.
- Easy Control: Start and stop heating are functioned automatically for easy and safe operating.
- High Quality: Uniform heating to guarantee high quality products.
- Heating Under Vacuum Condition: Microwave can penetrate deeply into product core under vacuum condition.
- Articles Packed by Bag: Microwave can go through bag to heat articles inside.
- Small Space Required: Continuous and high efficiency working to minimize operating space.
- Good Working Environment: Free of hot and noise problem.
