# About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

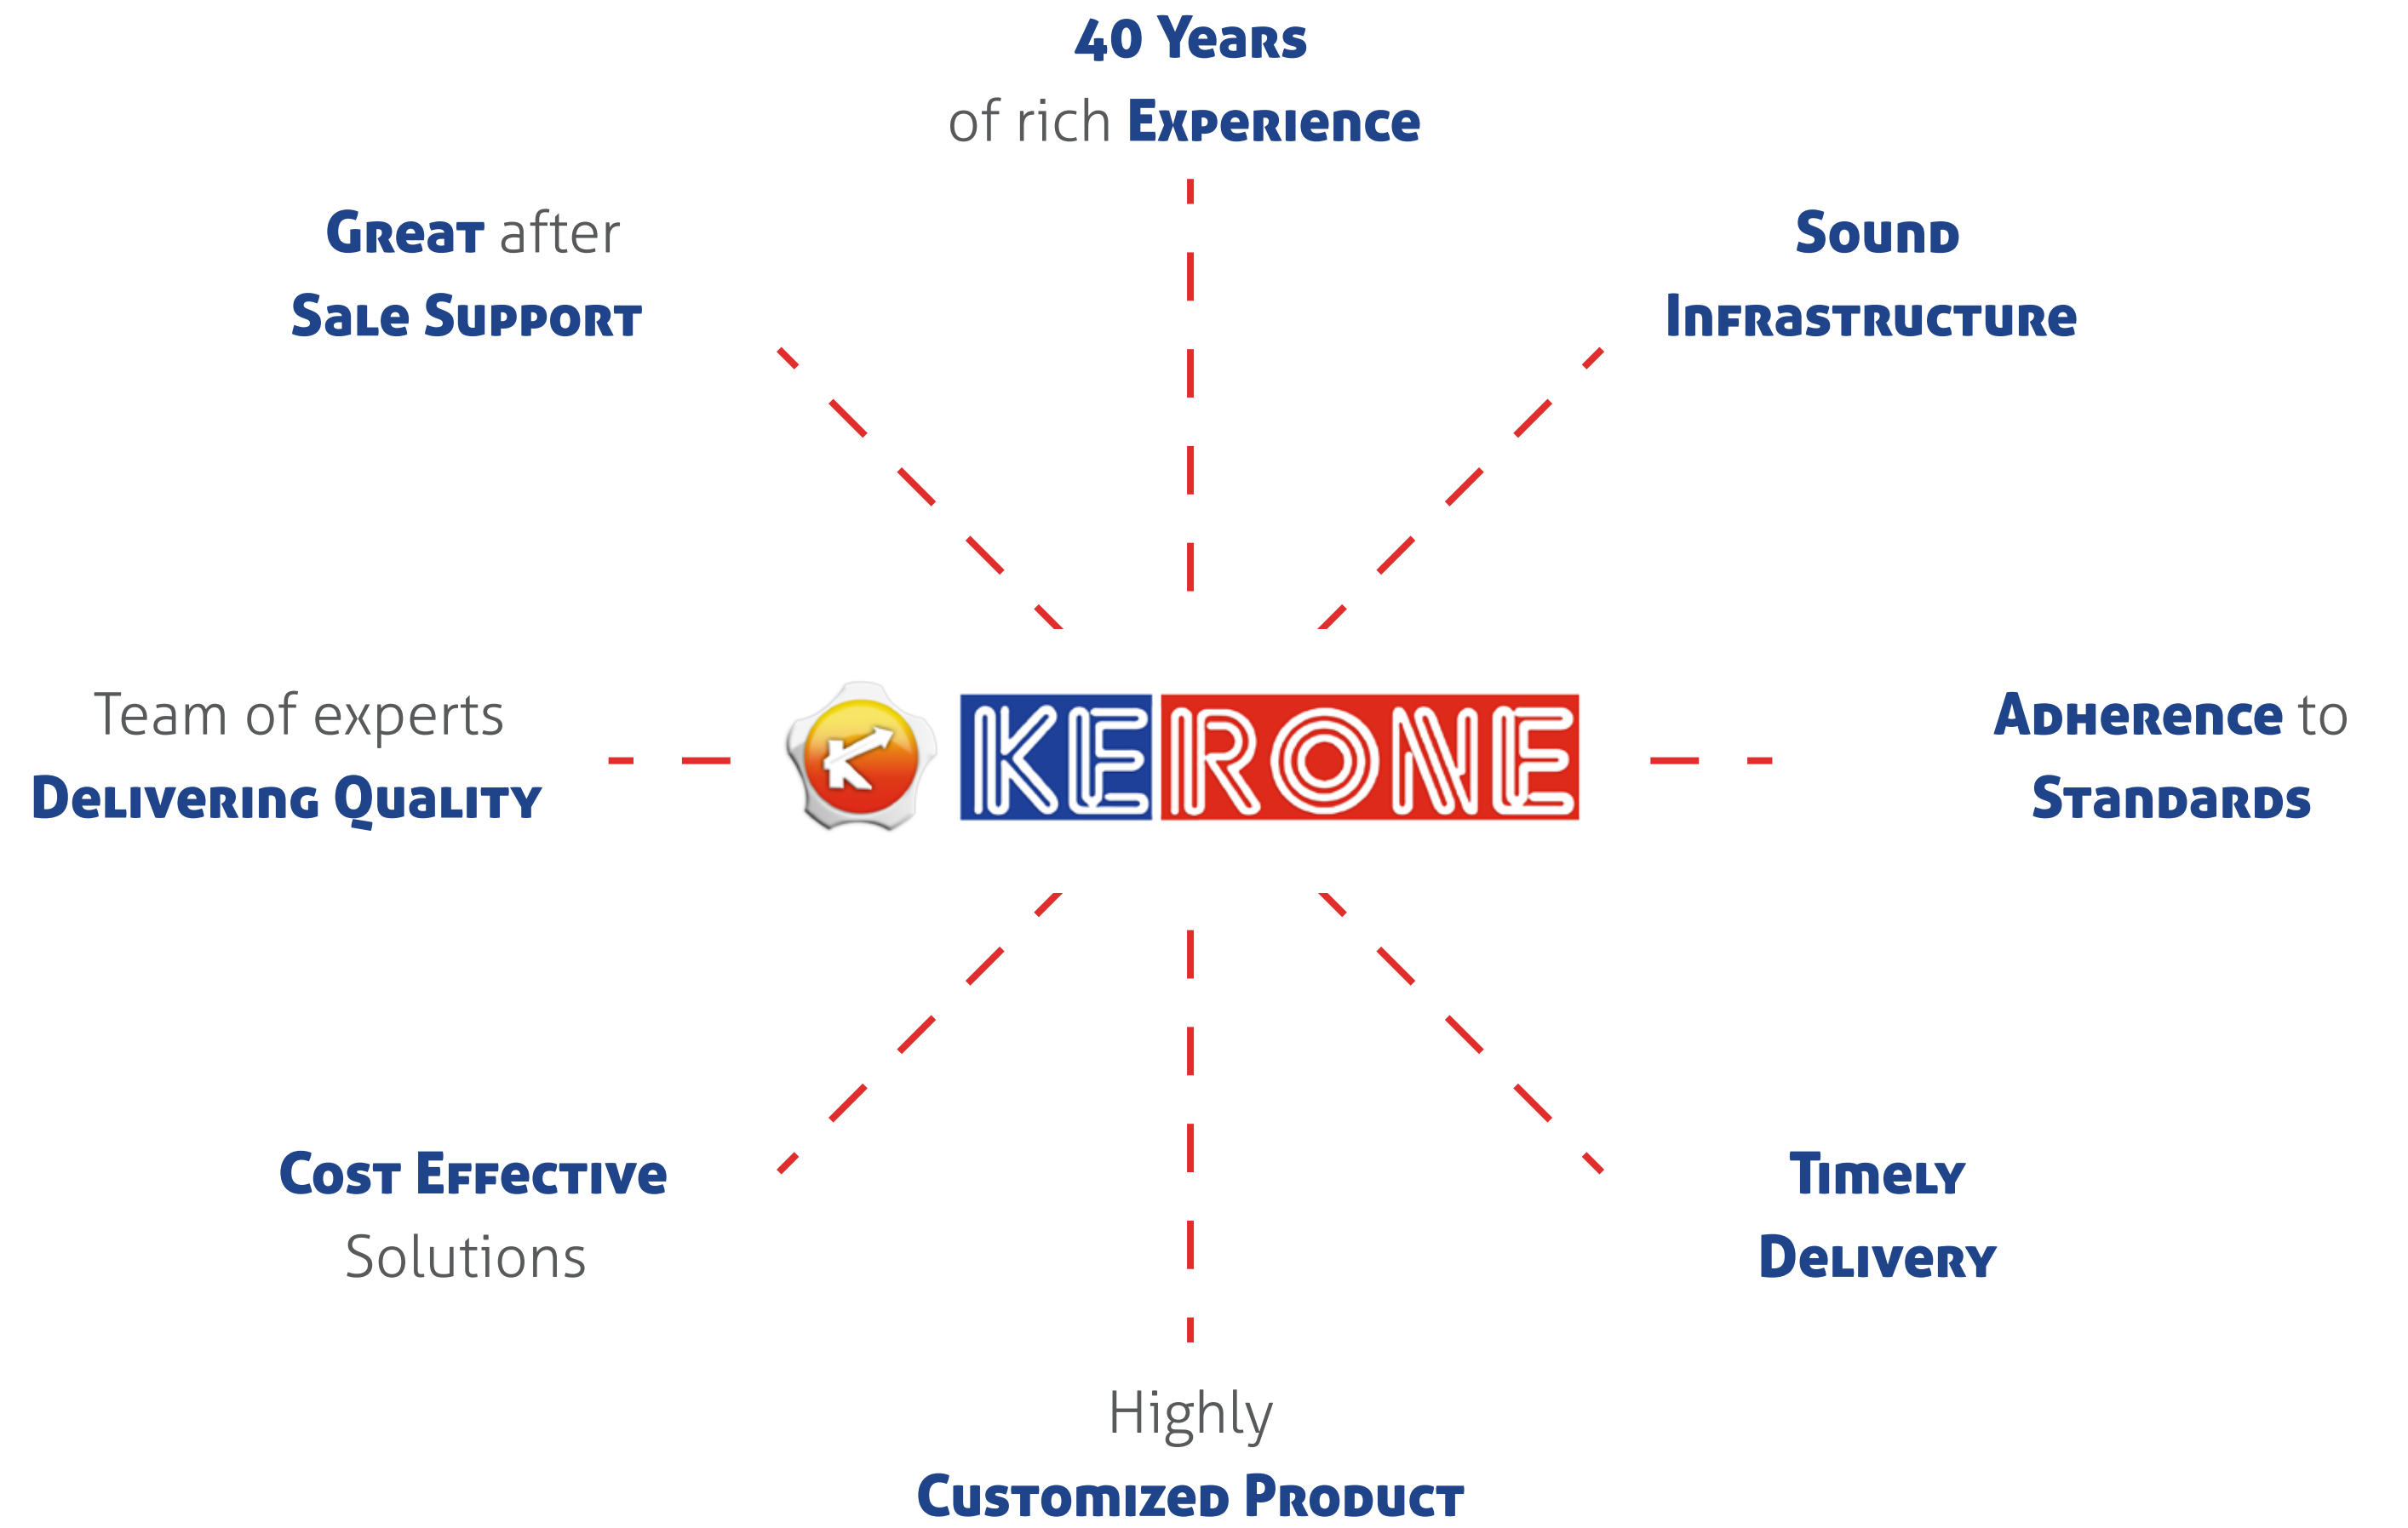

**“Enhance the value of customer operation through our customer need centric engineering solution”**

## *Mission*

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

## *Vision*

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

## Introduction to Conventional Heating Dryer

At KERONE we are involved in manufacturing of conventional heating and drying system since 1976, which provide us experience of manufacturing vast variety of conventional drying solutions, the conventional dryers designed and built by KERONE is strictly as per the need and specification of clients process requirements.

Dryers are designed only after studying each and every parameter of process requirement and the study is performed on the consequence analysis for each minute to minute details. We have established our name for timely delivery and high quality product.

The conventional dryers manufactured by KERONE of high quality. We manufacture various type of conventional dryer

### Batch type

### Conveyorised type

With Uniform Temperature Zone

With Various temperature Zone

Can accommodate multiple types of conveyor mechanism.
