About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Dehumidifiers

KERONE is engaged in designing and engineering specialized and quality products for its customers since last 40years, which had given us an upper hand in understanding the nerves of the clients process need and responding the demand of the market with its custom developed dehumidifiers. Our dehumidifiers are capable of efficiently remove excess moisture from the atmosphere of a given laboratory, work place or storage facility. Research laboratories, seed storage facility, pharmaceutical industries require dry air or low humidity atmosphere for various applications.

Quality Freezer offers the perfect Freezing atmosphere for complex medical biotechnological and industrial applications. Uses embrace the preservation of plasma, Vaccines, microorganism and the testing of materials and electronic components

kerone/dehumidifiers

www.kerone.com/dehumidifiers.php

Capacity:1.0 ton, 1.5 ton

The 1 ton dehumidifier has been designed for the floor area of 100 sq ft and also 1.5 ton dehumidifier has been designed for a floor area of 150 sq ft approximately. It is advisable to use air conditioner for to maintain better working condition in the location where dehumidifiers are installed. They work on 220 volts, single phase and 50Hz ac supply.

Features

- Optimum temperature is up to -35.0°C.
- Micro-controller based control.
- Bright red led display.
- 230 V ac power supply.
