# About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

**“Enhance the value of customer operation through our customer need centric engineering solution”**

## *Mission*

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

## *Vision*

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

## Introduction to **Electrical Heating Systems**

Electrical heating systems offer advantages such as high precision control of temperature and distribution of heat energy, firing is not used to develop heat. Heat generated from Electrical heating system can be accurately applied at the precise point needed in a process; electric heating devices don't have constraint of sizing and can be located anywhere.

Electric heating processes are usually clean, quiet, and do not result in much byproduct heat. Electrical heating equipment has a high speed of response, lending it to rapid-cycling mass-production equipment.

# Application

- Building and Commercial Premises
  - High end residential
  - Commercial complexes
- Healthcare
- Hospitals
- Hospitality
  - Hotels
  - Motels
  - Restaurants
  - Laundry services
- Industrial
  - Pharmaceutical
  - Printed Circuit Board Manufacturing
  - Rubber industries
  - Dairy farms
  - Food Processing
  - Medical Devices Manufacturing
  - Steel processing
  - Plastic Molding
- Marine and offshore applications
