About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

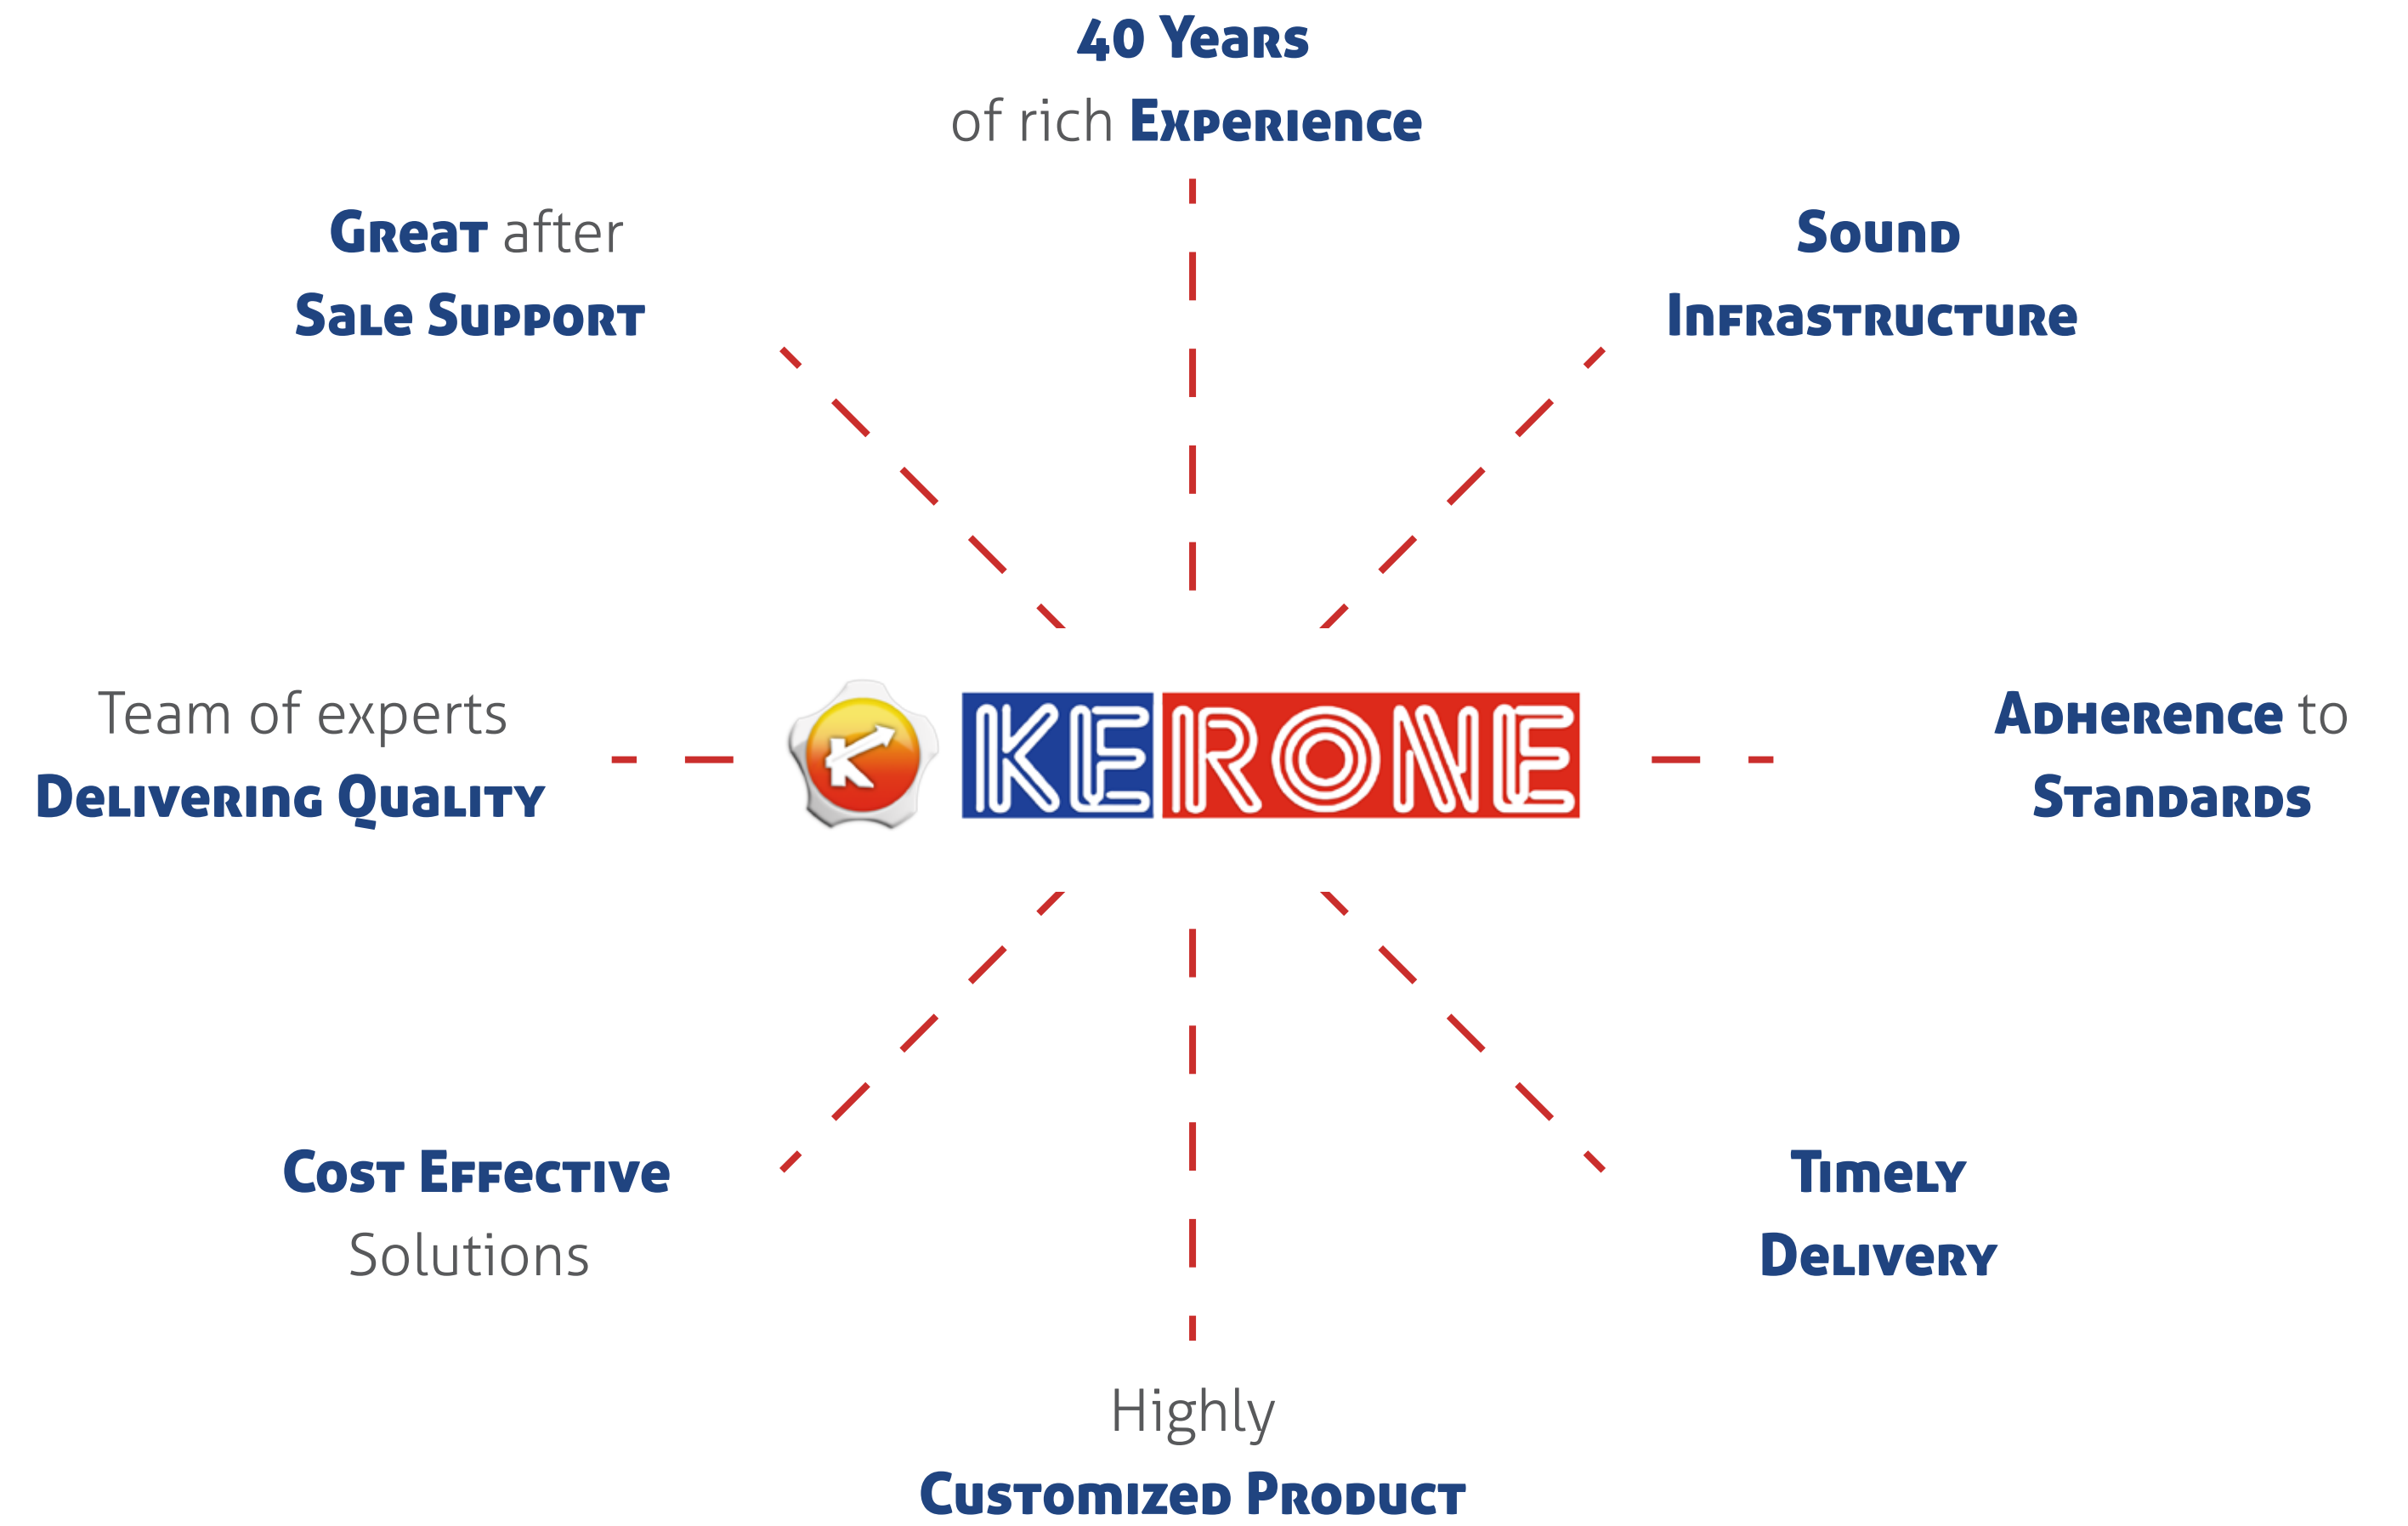

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to

Fast Medium Wave Infrared Heater

At KERONE we manufacture Infrared heaters for different applications from those required rapid heat-up to those require high temperature. The wavelength of the Fast Medium wave infrared heating is chosen such that the infrared emitted considerably influences the usefulness of the heating and drying process.

Fast Medium Wave Infrared heaters can be designed and supplied in multiples sizes based on the need of process.

The heater designed and manufactured by KERONE offers long operational lifetime and consistent temperature.

The rapid heating makes it suitable for the processes where quick drying is required.

Features

- Transparent quartz glass tube of outer diameter 11x23mm.
- Filament temperature of 600KW.
- Wave length of 1.5mm to 2.0mm
- Easily operation and installation
- Spontaneous turn On and Off.
- Tube format 34 x 14mm
