About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

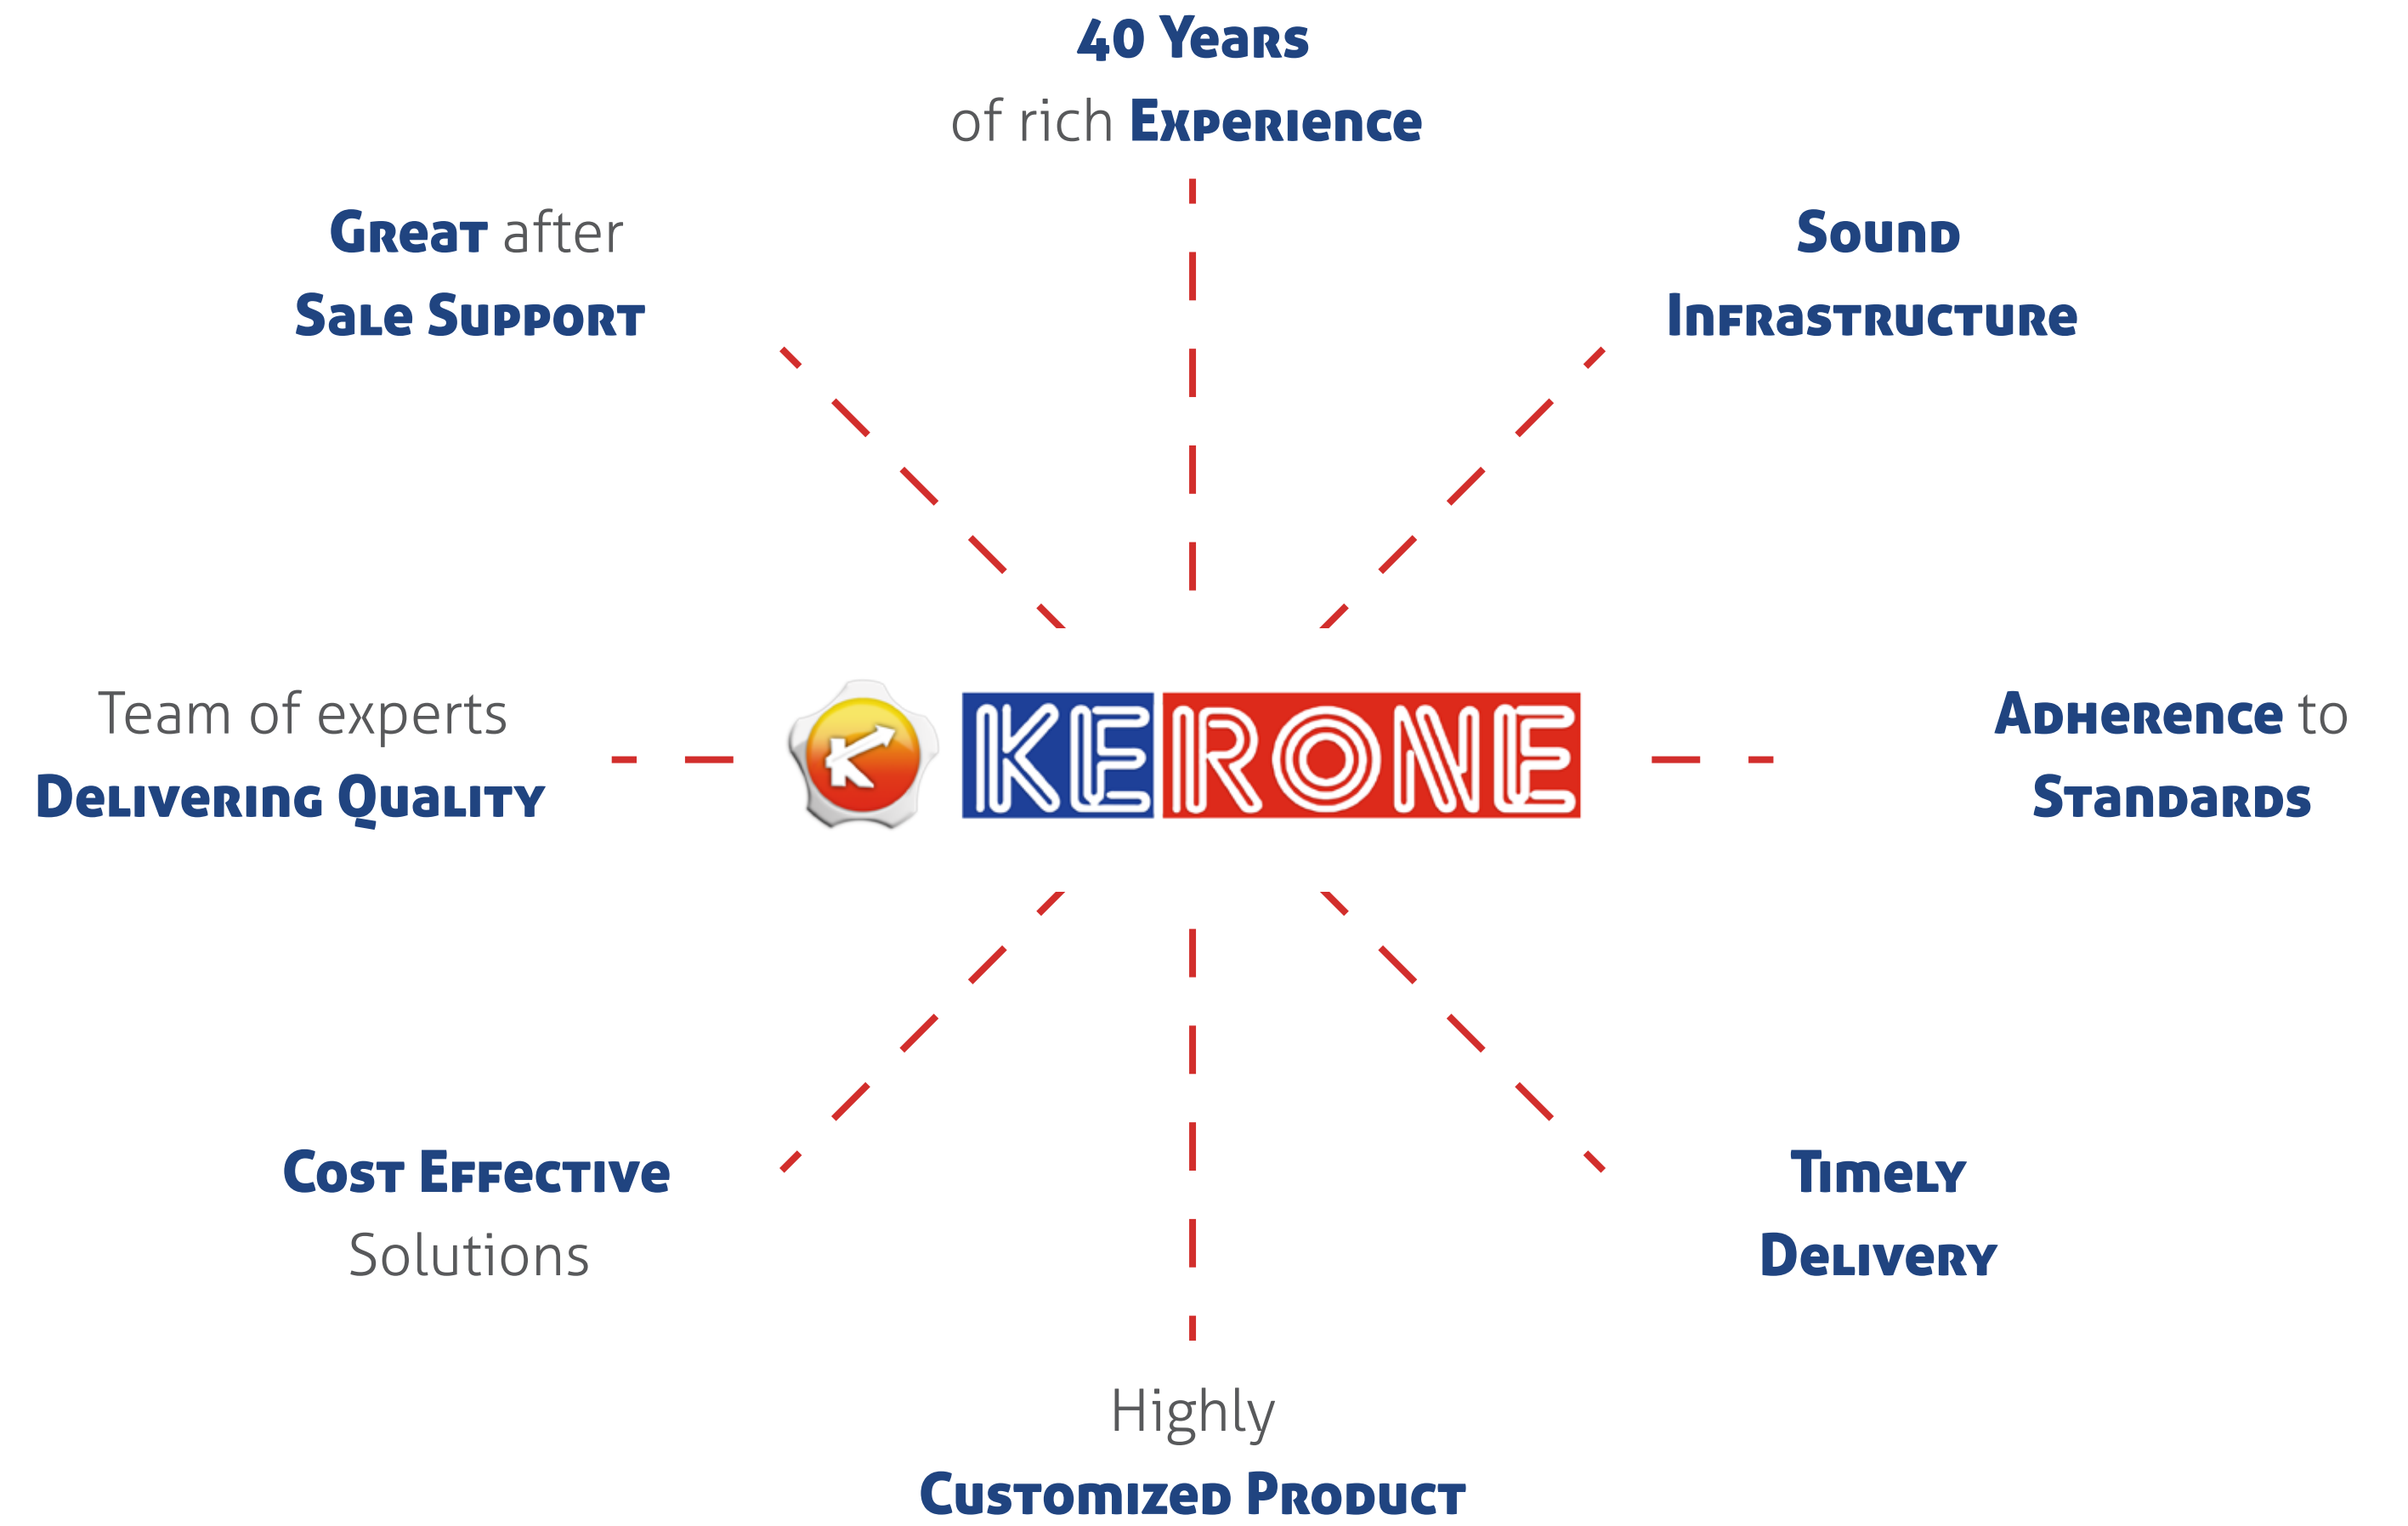

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Gas Fired Conveyor Ovens

The heating media used is oil/ gas fired burner attached to heat exchanger. These are widely used in automotive industry besides various other industries.

Specification:

- It is similar to Electrical belt Conveyor Oven but it has Oil/Gas fired heat exchanger as heating media instead of electrical heating elements.
- The total fuel consumption varies depending upon the size of working chamber & the working temperature.
- Saves running cost as compared to electrical conveyor oven.
- The air circulation is done with the help of dynamically balanced blowers to achieve uniform temperature throughout the inner chamber.
- Fully automatic imported burners are fitted on the heat exchanger for burning of Oil/ LPG.
- Temperature control: Automatic-Electronic
- Heating Media: Diesel or LPG fired.
- Easy to operate requires minimum training.
