# About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

**“Enhance the value of customer operation through our customer need centric engineering solution”**

## *Mission*

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

## *Vision*

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

## Introduction to Immersion Heaters

At KERONE we are designing and manufacturing wide range of immersion heaters based on the process requirement of the client , having different specifications and build with the quality materials.

These heaters are immersed into the chemical or the liquid to be heated; hence it comes in direct contact with the heating substance. Since the immersion heaters are put inside the liquid so all heat is generated within the liquid, hence almost 100% energy is utilized.

KERONE provides various temperature control options in its immersions heaters. Immersion heaters can be designed for heating any type of fluid, from plain water to high corrosive chemical solution, highly viscous oils, and for many specialized applications of high pressurized or hazardous chemical or process.

# Features

- Rugged and light weight construction
- Control mechanism
- Low and easy maintenance
- Solid construction
- Quick and Easy installation
- Precisely designed and engineered
- Hassle-free functioning
- Longer service life
- High durability
- Energy and Cost efficient
- Efficient performance
- Screw plug immersion heaters
- Flange immersion heaters
- Over-the-side immersion heaters
- Pipe Insert (Dry Well) Heaters
- Portable Tank Heater

# Specifications

- Hot water storage tanks
- Pre-heating oil & water
- Food processing equipment
- Cleaning and rinsing equipment
- Heat transfer, Process and Boiler equipment
