About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Tunnel / Clam Shell Ovens

Clam shell ovens are custom built with high quality infrared emitter, rugged housing for easy and proper maintenance.

For the oven heat source, offers a variety of electric infrared heaters, each with their own heating advantages and unique characteristics.

All heaters are completely manufactured to provide you the highest quality, efficient use, and best support. Our popular series Infrared heater is often used for clam shell configurations.

Clamshell tunnels can be used as a stand-alone complete pre-heat, postheat, dry or cure oven or as a boost system in conjunction with an existing hot air/convection oven.
