About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to U. V. Cabinet

It is an independent unit designed to view and make chromatograms furthermore to use all in all fluorescence studies.

The cabinet contains long wave, short wave ultra violet light and white light in a smaller table top which accommodates three method for finding and recognizing parts.

The chromatograms can be seen with 3600-4000 A long waves or 2500 A short wave ultra violet light or white light. The ultra violet lights can be utilized as a part of mix for the obliged reason.

The dark shade guarantees dimness and splendid lightning in the cabinet and in the meantime permits the client to handle the specimen and switches no sweat.
